ABSTRACT

Ananta Putri Laksmi (1200142) "Effect of Competence Master And Discipline Study Of Learning Outcomes At Subjects Economics (Case Students of SMA as the city of Cilegon) under the guidance of Advisor 1 Prof. Dr. H. Disman, MS and Supervisor 2 Dr. Neti Budiwati, M.Si.

This research was motivated by lower results for students at SMA as the city of Cilegon seen from the average value of National Exam Academic Year 2014/2015 and 2015/2016. The purpose of this study to determine the effect of teacher competence and discipline of learning on student learning outcomes on economic subjects. This research method uses explanatory survey, using the techniques of data collection in the form of a questionnaire. The population of this study were 2089. The sampling using two stage random sampling technique, which was purposive random sampling and quota sampling with a total sample of 262 students. Data analysis technique used was path analysis. The results of this study indicate (i) the competence of teachers and discipline of study that were in very high category. (ii) the competence of teachers and learning discipline positive effect on student learning outcomes on economic subjects in SMA as the city of Cilegon.

Keywords: competence of teachers, discipline, learning, learning outcomes
